 **BRAIN &
BEHAVIOR**
RESEARCH FOUNDATION

Awarding **NARSAD** Grants

Our mission: The Brain & Behavior Research Foundation is committed to alleviating the suffering caused by mental illness by awarding grants that will lead to advances and breakthroughs in scientific research.

How we do it: 100% of all donor contributions for research are invested in NARSAD Grants leading to discoveries in understanding causes and improving treatments of disorders in children and adults, such as depression, schizophrenia, anxiety, autism, and bipolar, attention-deficit hyperactivity, post-traumatic stress and obsessive-compulsive disorders.

Our credentials: For more than a quarter of a century, we have awarded over \$320 million world-wide to more than 3,800 scientists carefully selected by our prestigious Scientific Council.
